

stream geometry coupled with the integrated block feed device and the unique block feeding system

HIGH EFFICIENCY
N&N FLAKERS FL series with a cutting area of 750 x 620 x 810 mm (FL 660) these machines are capable of handling any common block size, whether standard (E80-2) blocks or (US 68 lbs) blocks (8" x 16" x 24") and reach capacities, due to the integrated pneumatic feeding arm, of up to 7.5t/h.

VERSATILITY
N&N NaDatowski worldwide is one of the few suppliers offering 3 different sizes of blades for its rotating cutters. The raw materials, further processing method and the required pre-cut size, determine the cutting thickness, which can be between 3 and 45 mm.

CONSTRUCTED TO MAKE IT EASY TO KEEP IT CLEAN
Due to the fully opening cover over the cutting area and the quick disassembly of the feeding arm, cleaning of the machine is made very easy. All product contact parts are stainless ground or polished, and the machine body is a completely closed designed, with the control box integrated into the machine frame. Therewith N&N sets the hygiene standard in the industry. Both models are noise protected.

THE HIGHEST QUALITY
N&N Flakers are certified with hygiene and safety regulations as well as with CE mark. N&N NaDatowski company applies a management system EN ISO 9001:2008 in line with the above standard for the following scope: Manufacture and service of machines for food industry. The certification was conducted in accordance with the TÜV NORD CERT auditing and certification procedures and is subject to regular surveillance audits.

"N&N" SCHNEIDER (FLAKER / SHREDDER) FÜR GEFRORENE BLÖCKE, TYP FL-440

- NEU !
- Flaker für Gefriergut (Fisch, Fleisch, Gemüse, usw...)
- elektrische Leistung : 9,2 / 11,5 kW
- Geschwindigkeit der Schneidtrommel : 1ste Geschwindigkeit – 70 Upm / 2te Geschwindigkeit – 140 Upm
- Abmessungen der Maschine (L x B x H) : ± 2.350 x 1.140 x 1.410 mm
- Produkttemperatur : max. – 30°C
- öffnen/schließen Deckel : pneumatisch "Festo"
- 6 Bar
- Kapazität: ± 4.000 kg / Stunde
- für Blöcke von max. ± 420 X 650 X 250 mm
- Anzahl der Messer: 4 Stück
- verschiedene Schnittgrößen möglich (1 Satz hohe Messer ist enthalten):
- niedrige Messer : 3, 6, 9 mm
- hohe Messer : 14, 17, 20 mm
- Entladung möglich in 200L Normwagen
- 3 x 400 V, 50Hz
- Gewicht: 980 kg
